A valuable resource for the legal community, this guide includes listings of businesses, vendors and expert witnesses organized by categories of interest to Pittsburgh-area attorneys.

EVG listings are paid advertisements; partners are vetted by the ACBA.
You can’t practice law alone.

In order to serve the needs of their clients, attorneys partner with an array of businesses, vendors, expert witnesses and consultants. Through our Expert and Vendor Guide, the Allegheny County Bar Association aims to help attorneys find the right experts, business partners and vendors to help their practices excel.

This publication lists dozens of vetted partner contacts – organized by business category – that Pittsburgh-area attorneys frequently partner with. This publication is distributed to ACBA membership via email four times per year, and is available 24/7 at ACBA.org/EVG.

Vendors interested in being listed in future editions of the Expert and Vendor Guide should contact Brian Knavish, the ACBA’s Director of Marketing, Media Relations and Strategic Partnerships, at bknavish@acba.org or 412-402-6620.
Dear ACBA Members:

In today's economic environment, businesses across all industries face seemingly endless challenges. Top of mind for many business leaders is the potential for an impending recession. However, irrespective of recession concerns, business leaders face unprecedented pressures in the current economic environment stemming from significant inflation (e.g., higher wage and materials costs), tight labor markets, persistent supply chain disruptions, increased regulatory scrutiny, rising interest rates, and the continued uncertainty resulting from the COVID-19 pandemic, amongst others. As history has proven, these types of challenges present leaders with increased risks of litigation and disputes, internal and regulatory investigations, and bankruptcy, to name a few.

During recessionary periods restricted access to funds, or interest rate increases, could lead to clients facing bankruptcy, which, in turn, can lead to unscrupulous accounting practices or activities. Such practices can potentially fuel issues like the filing of falsified tax returns/financial statements, falsified loan documentation, embezzlement, payments to shell companies, or any number of other issues. Higher costs can also potentially lead to manipulation of financial records to meet public market expectations or loan covenants to avoid default. And lastly, tight labor markets can potentially expose businesses to internal control failures/circumvention risks that present the opportunity for employees to execute fraud schemes (asset misappropriation, corruption, or financial reporting schemes). While these issues don’t always happen, it’s best for companies to be diligent and alert to their potential.

BDO’s Forensics practice can help guide clients through uncertain times. The following pages highlight BDO’s deep knowledge, breadth of resources, and our professionals that are available to assist you and your clients in these challenging times. Every day, we work hard to help limit our clients' risk exposure efficiently and cost effectively. Our leaders are backed by one of the largest international accounting and advisory networks, and our accessible, partner-led teams are uniquely poised to help you and your clients in these uncertain times.

Sincerely,

Jim Carroll, CPA/CFF, CFE, CRMA, MBA, MS

WHEN THE UNEXPECTED OCCURS, YOU NEED TO KNOW WHAT HAPPENED?

Numerous factors can lead to serious construction-site accidents, from inadequate worker training and safety procedures to faulty products and heavy equipment. Rimkus has decades of forensic experience investigating and evaluating injury accidents across the U.S. and in many foreign countries. Our construction experts conduct in-depth investigations to verify critical issues and can provide strategic solutions for recovery.

If you’re facing a complex forensic challenge of any kind, count on us to uncover the facts.

YOU HAVE QUESTIONS. WE PROVIDE ANSWERS.

Data security breaches are a constant threat

The Cybersecurity and Incident Response team at bit-x-bit can help

Data breaches can be caused by the actions (intentional or not) of employees or by outside threat actors. And whether initiated internally or externally, breaches can go undetected for days, weeks or even months. The cybersecurity and incident response team at bit-x-bit will determine exactly what happened and take action to mitigate the damage caused by the incident.

Align with elite legal talent

The legal industry is quickly evolving. Our legal executive and legal technology search and placement solutions find talent that evolves just as quickly.

For more than 30 years, many Am Law 200 firms and corporate legal departments have relied on us for the very best legal talent, from senior-level attorneys to legal technology specialists. Today, we are a nationwide leader in legal search, helping law firms and corporations advance their capabilities by aligning them with equally advanced talent.

Legal executive search

We have developed an extensive network of experienced and informed legal talent, and we work carefully to connect you with candidates who are ideally suited to your culture and goals. Some of the executive positions we specialize in placing include:

- Law Firm Placement.
- Partner Placement.
- Legal Technology Placement.
- In-House Placement.
- Retained Search.

How do we align you with the right people? We collaborate with the best

As pioneers and leaders in legal executive search and legal technology, we’ve been cultivating a national network of exceptionally qualified talent longer than anyone else. We’ve built relationships with the experts you won’t find on job boards, advertisements or other search firms. In fact, two out of every three placements we make stem from our exclusive database.

We know what it takes to succeed

Our knowledge of the legal industry is unparalleled; we’re intimately familiar with, skill sets and expected compensation packages in your market. As a result, we’re adept at aligning a candidate’s experience with an employer’s expectations, an individual’s personality with a company’s culture, and career aspirations with business objectives. That’s why 97 percent of offers extended to our candidates are accepted.

Where talent and technology collide

Technology has revolutionized the legal industry. We recognize the need for multi-faceted talent on your team that keeps pace with your ever-changing technological needs.
